7 Tips & Tricks

- Keep **Donor** and **Service Antennas** separated/isolated from each other for best performance
- For best performance, the cable between the **Donor Antenna** and GO unit should be as short as possible
- Use sealant if any connections are exposed to elements

8 Registration Instructions

⚠️ **YOU MUST REGISTER THIS DEVICE BEFORE IT WILL WORK**

To install your Telstra Go Mobile Smart Signal Repeater, follow the instructions in the Quick Start Guide. To register your Telstra Go Mobile Smart Signal Repeater follow the instructions below:

Step 1

The status indicator LED

Telstra GO Smart Signal Repeater

The status indicator LED will be blinking RED. Wait for the system to complete the network selection which **can take between 5 to 7 minutes.** When complete, the user interface will indicate that **registration is required from the Wave App.**

Step 2

Smartphone or Tablet

With your smartphone or tablet, complete registration by using the Cel-Fi WAVE application (Android or iOS).

Connect/Pair to Smart Signal Repeater

Bluetooth

Step 3

Go to the **App Store** or the **Google Play Store** and search for "Cel-Fi WAVE" to download the free app.

Download on the **App Store**

GET IT ON **Google play**

Step 4

Launch the Cel-Fi WAVE app in **close proximity** to the Telstra GO Stationary Unit.

Step 5

Once the application has connected to the Telstra GO Stationary Smart Signal Repeater, you will be prompted to register.

For more information and helpful videos about the installation and registration of the Telstra GO system, please visit www.cel-fi.com/register. As part of the registration process Telstra will collect your private information including name, contact details and location. Please see our Privacy Policy at https://www.telstra.com.au/privacy/privacy-statement for more details.

Telstra GO Mobile Bull Bar Antenna Bundle
Quick Start Guide

Telstra GO is an evolved cellular repeater design that can amplify cellular signals. Connect a single Donor External Antenna to receive the macro-network signals, and then a single indoor Service Antenna where you need service, and Telstra GO will do the rest automatically once you register.

IN THE BOX

- Telstra GO Mobile Repeater with Quick Start Guide
- RFI CD7195 Bull Bar Antenna (Donor Antenna)
- Pulse Adaptor - FME Male to SMA Male
- Warranty Card
- Mounting Screws
- 12V CLA Power Supply Unit

Telstra GO Mobile **Installation**

1 Install Donor Antenna

DONOR ANTENNA

Mount your **Donor Antenna** on the exterior of the vehicle, on the bullbar. Make sure you consider the cable connection to the **Telstra GO** unit with your location choice.

RFI

Service Antenna
Mobile Service Avntenna

2 Install Service Antenna

SERVICE ANTENNA

DONOR ANTENNA

Install **Service Antenna** in the vehicle, towards the rear or where coverage is needed.

3 Mount Telstra GO

SERVICE ANTENNA

DONOR ANTENNA

TELSTRA GO

Find a good mounting location in your vehicle. Location should have airflow and be secure from contact with external objects.

Make sure the unit is within cable range of the 12V power supply on your vehicle.

Best to make sure all cable lengths support the intended mounting location BEFORE permanent mounting.

⚠️ **Do not** plug in the power supply into the device until installation is complete.

4 Connect Donor & Service Antennas to the Telstra GO Unit

5 Ground the Telstra GO

If your unit has a 12V CLA with a grounding tab on the end, then:
(1) attach that tab to the grounding post* on the Telstra GO prior to attaching to power.
(2) Use the nut *(included)*
(3) to secure the tab to the unit.
